Summary Prospectus | October 31, 2016

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. You can find the Fund's Prospectus, Statement of Additional Information and other information about the Fund online at <http://www.brownadvisoryfunds.com/documents.html>. You may also obtain this information at no cost by calling 800-540-6807. The Fund's Prospectus and Statement of Additional Information, both dated October 31, 2016, are incorporated by reference into this Summary Prospectus.

Investment Objective

The Brown Advisory Maryland Bond Fund (the "Fund") seeks to provide a high level of current income exempt from both Federal and Maryland State income taxes without undue risk.

Fees and Expenses

The following table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Institutional Shares	Investor Shares	Advisor Shares
Maximum Sales Charge (Load) imposed on Purchases (as a % of the offering price)	None	None	None
Maximum Deferred Sales Charge (Load) imposed on Redemptions (as a % of the sale price)	None	None	None
Redemption Fee (as a % of amount redeemed on shares held for 14 days or less)	1.00%	1.00%	1.00%
Exchange Fee (as a % of amount exchanged on shares held for 14 days or less)	1.00%	1.00%	1.00%

Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>	Institutional Shares	Investor Shares	Advisor Shares
Management Fees	0.30%	0.30%	0.30%
Distribution (12b-1) Fees	None	None	0.25%
Shareholder Servicing Fees	None	0.05%	0.05%
Other Expenses	0.13%	0.13%	0.13%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%	0.01%	0.01%
Total Annual Fund Operating Expenses	0.44%	0.49%	0.74%

(1) Acquired Fund Fees and Expenses are indirect fees and expenses that the Fund incurs from investing in the shares of other mutual funds, including money market funds and exchange traded funds. Please note that the amount of Total Annual Fund Operating Expenses shown in the above table will differ from the "Financial Highlights" section of the Prospectus, which reflects the operating expenses of the Fund and does not include indirect expenses such as Acquired Fund Fees and Expenses.

Example

The example below is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. This example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of each period. The example also assumes that your investment has a 5% annual return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Institutional Shares	\$45	\$141	\$246	\$555
Investor Shares	\$50	\$157	\$274	\$616
Advisor Shares	\$76	\$237	\$411	\$918

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable

account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the portfolio turnover rate for the Fund was 80% of the average value of its portfolio.

Principal Investment Strategies

Under normal conditions, Brown Advisory LLC (the "Adviser") seeks to achieve the Fund's investment objective by investing at least 80% of the value of its net assets (plus borrowings for investment purposes) in Maryland bonds, including bonds issued on behalf of the State of Maryland, its local governments and public financing authorities. The Fund may also invest in municipal securities issued by other states, U.S. territories, and possessions, U.S. Government securities, general obligation securities and revenue securities, including private activity bonds. The Adviser determines which securities to purchase by first evaluating whether a security falls within the credit guidelines set for the Fund by reviewing the ratings given by S&P and Moody's. The Adviser then determines the appropriate maturity date and coupon choice after analyzing the current and targeted portfolio structure, and whether or not the issue is fairly priced. The Fund is non-diversified which means that it may invest a significant portion of its assets in the securities of a single issuer or small number of issuers. Generally, the average weighted maturity of the Fund's portfolio securities will be between 4 and 10 years. Normally, the Fund will invest at least 80% of the Fund's total assets in securities the interest of which is exempt from Federal and Maryland State income taxes, although such interest may be subject to the Federal alternative minimum tax ("AMT"). All capital gains are subject to Federal and state taxes. Municipal securities include municipal bonds, notes, and leases. Municipal leases are securities that permit government issuers to acquire property and equipment without the security being subject to constitutional and statutory requirements for the issuance of long-term fixed income securities.

The Fund may invest in derivatives instruments, such as options, futures contracts, including interest rate futures, and options on futures. These investments will typically be made for investment purposes consistent with the Fund's investment objective and may also be used to mitigate or hedge risks within the portfolio or for the temporary investment of cash balances. These derivative instruments will be counted toward the Fund's 80% policy to the extent they have economic characteristics similar to the securities included within that policy.

The Adviser may sell a fixed income security or reduce its position if:

- Revised economic forecasts or interest rate outlook requires a repositioning of the portfolio;
- The security subsequently fails to meet the investment criteria;
- A more attractive security is found; or
- The Adviser believes that the security has reached its appreciated potential.

In order to respond to adverse market, economic, political, or other conditions, the Fund may assume a temporary defensive position that is inconsistent with its investment objective and principal investment strategy and invest without limit in cash and prime quality cash equivalents such as prime commercial paper and other money market instruments. A defensive position, taken at the wrong time, may have an adverse impact on the Fund's performance. The Fund may be unable to achieve its investment objective during the employment of a temporary defensive measure.

Principal Investment Risks

As with all mutual funds, there is the risk that you could lose all or a portion of your investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The following are the principal risks that could affect the value of your investment:

- **Credit Risk.** The value of your investment in the Fund may change in response to changes in the credit ratings of the Fund's portfolio securities. Generally, investment risk and price volatility increase as a security's credit rating declines. The financial condition of an issuer of a fixed income security held by a Fund may cause it to default or become unable to pay interest or principal due on the security.
- **Debt/Fixed Income Securities Risk.** An increase in interest rates typically causes a fall in the value of the debt securities in which the Fund may invest. The value of your investment in the Fund may change in response to changes in the credit ratings of the Fund's portfolio of debt securities. Interest rates in the United States are at, or near, historic lows, which may increase the Fund's exposure to risks associated with rising interest rates. Moreover, rising interest rates or lack of market participants may lead to decreased liquidity in the bond and loan markets, making it more difficult for the Fund to sell its holdings at a time when the Fund's manager might wish to sell. Lower rated securities ("junk bonds") are generally subject to greater risk of loss of your money than higher rated securities. Issuers may (increase) decrease prepayments of principal when interest rates (fall) increase, affecting the maturity of the debt security and causing the value of the security to decline.
- **Derivatives Risk.** The risk that an investment in derivatives will not perform as anticipated, cannot be closed out at a favorable time or price, or will increase the Fund's volatility; that derivatives may create investment leverage; that, when a derivative is used as a substitute or alternative to a direct cash investment, the transaction may not provide a return that corresponds precisely with that of the cash investment; that a derivative will not perform in the manner anticipated by the Adviser; or that, when used for hedging purposes, derivatives will not provide the anticipated protection, causing the Fund to lose money on both the derivatives transaction and the exposure the Fund sought to hedge. Additionally, any derivatives held by the Fund will have

counterparty associated risks, which are the risks that the other party to the derivative contract will fail to make required payments or otherwise to comply with the terms of the contract. In the event the counterparty to such a derivative instrument becomes insolvent, the Fund potentially could lose all or a large portion of its investment in the derivative instrument.

- **Interest Rate Risk.** An increase in interest rates typically causes a fall in the value of the fixed income securities in which the Fund may invest. Interest rates currently are at, or near, historic lows, and may increase, with potentially sudden and unpredictable effects on the markets and the Fund’s investments.
- **Liquidity Risk.** Certain fixed income securities held by the Fund may be difficult (or impossible) to sell at the time and at the price the Adviser would like. As a result, the Fund may have to hold these securities longer than it would like and may forego other investment opportunities. There is the possibility that the Fund may lose money or be prevented from realizing capital gains if it cannot sell a security at a particular time and price.
- **Management Risk.** The Fund may not meet its investment objective based on the Adviser’s success or failure to implement investment strategies for the Fund.
- **Maryland Bonds and Municipal Securities Risk.** Adverse economic or political factors in Maryland will affect the Fund’s NAV more than if the Fund invested in more geographically diverse investments.
- **Municipal Securities Risk.** Adverse economic or political factors in the municipal bond market, including changes in the tax law, could impact the Fund in a negative manner.
- **Non-Diversification Risk.** Investment by the Fund in securities of a limited number of issuers exposes it to greater market risk and potential monetary losses than if its assets were diversified among the securities of a greater number of issuers.
- **Private Placement Risk.** The Fund may invest in privately issued securities of domestic common and preferred stock, convertible debt securities, ADRs and REITs, including those which may be resold only in accordance with Rule 144A under the Securities Act of 1933, as amended. Privately issued securities are restricted securities that are not publicly traded. Delay or difficulty in selling such securities may result in a loss to the Fund.
- **Tax Risk.** Municipal securities may decrease in value during times when tax rates are falling. The Fund’s investments are affected by changes in federal income tax rates applicable to, or the continuing federal tax-exempt status of, interest income on municipal obligations. Any proposed or actual changes in such rates or exempt status, therefore, can significantly affect the liquidity, marketability and supply and demand for municipal obligations, which would in turn affect the Fund’s ability to acquire and dispose of municipal obligations at desirable yield and price levels.

Performance Information

The following performance information provides some indication of the risks of investing in the Fund. The chart shows changes in the Fund’s performance of Investor Shares from year-to-year. The table shows how the average annual returns of Investor Shares for 1, 5 and 10 year periods compare to a broad-based market index.

The Fund is the successor to the investment performance of the Brown Advisory Maryland Bond Fund (the “Predecessor Fund”) as a result of the reorganization of the Predecessor Fund into the Fund on October 19, 2012. Accordingly, the performance information shown below for periods prior to October 19, 2012 is that of the Predecessor Fund. The Predecessor Fund was also advised by the Adviser and had the same investment objective and strategies as the Fund.

Performance information represents only past performance, before and after taxes, and does not necessarily indicate future results. Updated performance information is available online at www.brownadvisoryfunds.com or by calling 800-540-6807 (toll free).

The Fund’s calendar year-to-date total return as of September 30, 2016 was 3.10%. During the periods shown in the chart, the highest quarterly return was 3.46% (for the quarter ended September 30, 2009) and the lowest quarterly return was -1.83% (for the quarter ended June 30, 2013).

Brown Advisory Maryland Bond Fund
Average Annual Total Returns

For the period ended December 31, 2015	1 Year	5 Years	10 Years
Investor Shares			
– Return Before Taxes	1.66%	2.50%	3.05%
– Return After Taxes on Distributions	1.54%	2.39%	2.99%
– Return After Taxes on Distributions and Sale of Fund Shares	1.82%	2.40%	2.93%
Barclays 1-10 Year Blended Municipal Bond Index (reflects no deduction for fees, expenses or taxes)	2.45%	3.56%	4.08%

NOTE: Prior to October 19, 2012, Investor Shares were known as Institutional Shares.

After-tax returns are calculated using the historical highest individual Federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. In certain cases, the figure representing “Return after Taxes on Distributions and Sale of Fund Shares” may be higher than the other return figures for the same period, since a higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

Management

Investment Adviser	Portfolio Managers
Brown Advisory LLC	Stephen M. Shutz, CFA, has served as portfolio manager of the Fund since 2014.

Purchase and Sale of Fund Shares

You may purchase, exchange or redeem Fund shares on any business day by written request via mail (Brown Advisory Funds, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701), by wire transfer, by telephone at 800-540-6807 (toll free) or 414-203-9064, or through the Internet at www.brownadvisoryfunds.com. Investors who wish to purchase, exchange or redeem Fund shares through a broker-dealer should contact the broker-dealer directly. The minimum initial and subsequent investment amounts for various types of accounts are shown below.

Type of Account	Minimum Initial Investment	Minimum Additional Investment
Institutional Shares		
– Standard Accounts	\$1,000,000	\$100
Investor Shares		
– Standard Accounts	\$100	\$100
– Traditional and Roth IRA Accounts	\$100	\$100
– Accounts with Systematic Investment Plans	\$100	\$100
Advisor Shares		
– Standard Accounts	\$100	\$100
– Traditional and Roth IRA Accounts	\$100	N/A
– Accounts with Systematic Investment Plans	\$100	\$100
– Qualified Retirement Plans	N/A	N/A

The minimum investment requirements are waived for retirement plans that are qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended (“IRC”) and tax-exempt under Section 501(a) of the IRC, and plans operating consistent with Section 403(a), 403(b), 408, 408A, 457 or 223(d) of the IRC.

Tax Information

Distributions attributable to interest received by the Fund on Maryland municipal obligations are generally exempt from Federal and Maryland State and local income taxes. However, such distributions may be subject to alternative minimum tax and will generally not be exempt from taxation under the laws of states other than Maryland. Distributions attributable to taxable interest, dividends and all capital gains may be subject to Federal and Maryland State and local taxes, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA, and then you may be taxed later upon withdrawal of your investment from these tax-deferred accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a fund-supermarket), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
